

Meramec Welcomes Richa Vishwakarma

New hire strengthens Meramec's design engineering talent

Cuba, Missouri, June 13th, 2016 -

Meramec Instrument Transformer Co. is proud to welcome Richa Vishwakarma to the company as a Design Engineer. Richa is expected to be an integral part of Meramec's engineering team, as her knowledge and experience will allow her to become a vital contributor to Meramec's growth and development.

Richa joins the Meramec team after a successful tenure with CG Power System USA. Richa's experiences include creating designs per customer specification to meet the needs of the Power Transformer industry. This includes performing short circuit force calculations, analyses, and testing using the latest computer-aided design software.

Richa brings to Meramec a Master of Electrical Engineering degree from the University of Bridgeport in Connecticut. Among other career experiences, Richa's background includes serving as a Core and Winding Arrangement Designer in transformers up to 350 MVA, as well as coordinating and providing technical assistance to fully develop system integration of Transformer Protection, Control, and Monitoring Systems.

Richa states, *"I am excited to be a part of the Meramec team. I am very familiar with Meramec's role and contribution to the Instrument Transformer business and I am grateful for the opportunity to represent a company that has the reputation as being a leader in product quality, technical support, and customer service."*

About Meramec Instrument Transformer Co:

Meramec Instrument Transformer Co. was established in 1969 and is located in Cuba, Missouri. For over 45 years, Meramec has focused on product quality, technical support, customer service, and industry leading turnaround times. Meramec products are designed, manufactured, produced, and managed completely in the U.S.A. Meramec believes in the importance of continuous improvement and being prepared for the future. Because of that, the company is ISO 9001:2008 registered, is a proud partner in the Green Supplier Network, and manufactures its products using renewable resources. Meramec's goal is to always exhibit the very highest of regard and professionalism to its customers, the public, and the environment.
