

Meramec Earns ISO 9001:2015 Certification

Commitment to quality creates growth for Meramec

FOR IMMEDIATE RELEASE

Cuba, Missouri – January 22, 2018 – On January 10, 2018, Meramec Instrument Transformer Co. (Meramec) was awarded their new certificate of registration for ISO 9001:2015. The audit was conducted in December 2017 by an internationally recognized third party registrar, NSF International.

The new 2015 standard revision is a progression of the ISO 9001 standard from Quality Management System into a Business Management System. This allows registered organizations the flexibility to implement the specified guidelines to the needs and functions of the business overall. The latest 2015 revision highlights include standard efficiency, continuous improvement, process control/thorough documentation and risk management. Risk management is a key component of the 2015 standard ensuring that risk adversity is at the forefront of top management's decision making.

“The ease and subsequent success of the audit process at Meramec is a great testament to the quality and forward thinking of our leadership,” commented Lee Emery, quality manager and Meramec, “as well as the efforts of all employees to maintain a stellar work environment with excellent process controls that ensures the company is constantly audit-ready, every day.”

Being a 9001:2015 registered company gives Meramec customers and suppliers the confidence that Meramec does what they say they will do and maintains their commitment to customer satisfaction and continual improvement.

About Meramec Instrument Transformer Co.

Meramec Instrument Transformer Co. was established in 1969 and is located in Cuba, Missouri. For over 45 years, Meramec has focused on product quality, technical support, customer service, and industry leading turnaround times.
